THE NEWSLETTER OF THE INDIAN VALLEY
HARLEY OWNERS GROUP

APRIL 2012

APRIL 2012

ABOUT OUR CHAPTER

Established in 1989, IVHOG is celebrating it's 22nd year as a Harley Owners Group chapter.

In business for over 65 years, Dean's Harley Davidson of Souderton, PA is our sponsoring Dealer.

Our Monthly Chapter Meetings are held on the first Sunday of every month at the German Hungarian Club in Hilltown, PA

For information regarding membership or chapter events, contact any officer listed herein.

IV HOG members,

Great times are ahead of us. Our membership continues to grow by leaps and bounds; most ever in such a short period of time. With this growth comes many opportunities for each of you to support and participate in the many rides and events planned for this year. It takes a ton of effort to plan and execute each event. Get involved. All of your help is needed.

Riding season is now upon us. Safety is our number 1 priority. Group riding can be extremely exciting. If you have done little or no group riding, I recommend that you take advantage of the tune up ride Lead Road Captain Joe Graziano has planned for later in April. This gives you an opportunity to understand how the process works and makes you, and your fellow riders around you, safer. Keeping your distance and staying in your lanes are key aspects of the group riding. In addition, understanding the hand signals is critical (see page 5 for pictures of IVHOG's signals). No matter where you are located in the group [front, middle, back] of the pack, awareness of the upcoming actions is key to safe group riding.

There are long rides and short rides planned after every membership meeting. There are also many other rides to events on the planner. Check the IVHOG website and participate. Who knows, you may really like the action; and, the larger the group the better.

Riding and wearing your colors should make you proud to be part of the IVHOG chapter. Always wear your colors - we are respected out on the road. We have plenty of new patch work including the Rockers [small and large] and will have new merchandise for the May meeting. We also have Interclub patches. Take advantage and add some of this new stuff to your collection.

The events we sponsor need support from you to insure we are successful. There are always a group of the members who can be counted on to help wherever needed and a "thank you" goes out to them. With the current size of our club, we would like to see more of you getting involved. Step up and give some of your time to the planning an execution of our events. It's a great way to meet more of the members as you do your part to contribute to the Club's continuing success.

Have you been at Dean's lately? If so, you already know things are very busy. If not, you should get there. Many folks are purchasing a Harley to avoid the rising gas prices, or as a first time rider, or upgrading to a new model. So, as always, I urge you to please continue to support Dean's HD for all your motorcycling needs. Whether it is for a motorcycle purchase, parts, clothing, accessories, or service your patronage of Dean's will help to keep it strong and growing.

April's Safety Tip

IV HOG Group Ride Guidelines

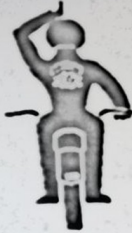

- Road Captains are in charge of the ride and are responsible for all ride planning and maintaining group integrity. There will be a "lead" road captain in front and a "sweep/drag" road captain in the rear of the group. Whenever possible, the road captains will use CB radios for communication.
- A pre-ride review will be held before each ride to review route of travel, hand signals, CB channels used, stopping plans, and safety rules.
- All riders should arrive with a full gas tank and an empty personal gas tank (empty bladder).
- The rides will be in a two column, staggered formation with each rider maintaining AT LEAST 2 seconds minimum spacing with the rider directly ahead of him and 1 second spacing behind the rider in the opposite column. Higher highway speeds require more space. Never ride along side or close behind the rider in the opposite column. Each rider has the right to expect that he can maneuver the whole width of the lane to avoid obstacles, potholes, etc.
- All riders should help maintain formation integrity, never change columns during a ride. If a rider has to leave the formation, adjacent riders should "wave up" the next rider in that column to replace the rider who has left and maintain the staggered formation.
- All rides will be conducted at a safe speed, taking into account the weather conditions and allowing for new or inexperienced riders. The lead road captain will regulate the group speed to try and reduce the "rubber band" effect after pulling away from any stop or slowdown.
- IV HOG doesn't condone the use of blockers.
- The lead road captain will plan the rides to allow stopping for gas, etc. approximately every 60 miles or as the ride plan dictates.
- If the group becomes separated by a stop sign or traffic light etc, the last rider in the front group will hang at the last turn in view of the separated group to see, and in a safe location. As the last rider is pulling over to wait for the separated group, he should make sure that the rider in front of him knows that they are stopping, as not to break the cycle. The lead road captain has to use his discretion to pull over to re-group at a safe location down the road.
- The group will stay together at all times. If a rider needs to leave the group, he should notify all other road captains at the beginning of the ride.
- If a rider is forced to pull over, the group will continue in the direction of travel. Do NOT pull over yourself. The rear road captain will pull over to assist the "stricken" rider. The group will pull over at the next safe location and await the disposition of the stricken rider.
- When passing, the lead road captain will signal that the group is going to pass. The rear road captain will pull into the passing lane, prior to the group, to slow down and prevent any vehicles from coming up into the group. The group will then be able to safely start passing. After the lead road captain pulls out to pass, the group will then follow him.
- The "guidelines" will be reviewed and/or updated at least once every year to allow input and modifications by the chapter members.
- Hand signals will be designated by the lead road captain and used when turning, passing, or pointing out road hazards, etc. Hand signals must be passed back through the entire group by each individual rider to the rear road captain.

IV HOG Group Ride Guidelines - Continued Hand Signals

SINGLE FILE
Position your left hand over your helmet with your fingers extended upward. This indicates the leader wants the group in a single file formation. Usually this is done for safety reasons.

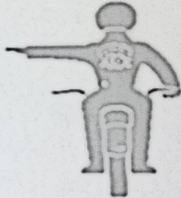

STAGGERED FORMATION
Extend your left arm upward at a 45 degree angle with your index and pinkie finger extended. This indicate that it is safe to return to staggered formation.

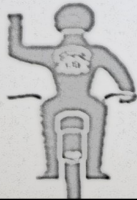

SLOW DOWN
Extend your left arm at a 45 degree angle and move your hand up and down.

LEFT TURN
Raise your left arm horizontal with your elbow fully extended.

RIGHT TURN
Raise your left arm horizontal with your elbow bent 90 degrees vertically.

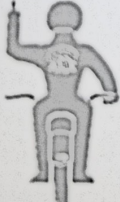

HAZARD LEFT
Extend your left arm or leg 45 degree angle and point towards the hazard.

HAZARD RIGHT
Extend your right leg at a 45 degree downward angle to signal the hazard.

PISSED OFF
Extend your left arm straight out with your elbow bent 90 degrees. Carefully extend your middle finger to clearly demonstrate your dissatisfaction with the other guy.
NOTE: It is not recommended you do this when you are alone.

Why Do We Ride?
by
PGR Member Laurel B. Dinsmore May 8, 2006

*May 20th is the annual "Ride for the Heroes" event. In anticipation of the ride we present the following tribute to fallen members of our Armed Forces.
Thanks to IVHOG's Ron Hansen for bringing this to our attention.*

Why do we do this, you ask?

Why bother to stand out in wind and rain for someone unknown?

Why do we ride through torrents chilled to the bone?

The answer is simple: "Because, Never Again!"

Never again will they return home in shame,

Never again will wearing their uniform cause them pain.

Never again will we forget why they serve.

No, Never Again.

But still I hear you say "Why does it matter to you?"

"They aren't your friends,

your brothers, your sisters,

your father, your mother."

War is a sad time for many; it is sad but true.

So, why do you gather in the gap between their families and their foes?

The answer is simple: "Because, Never Again!"

**Never again will grieving parents, families and friends alone bear
mourning's toil.**

Never again will hard-won freedom of speech be used to debase and destroy.

Never again will their sacrifice be dishonored upon their home soil.

No, Never Again.

Why do we gather, why do we ride?

Why travel this country far and wide?

We remember our grandfathers, fathers, brothers and others yet to come.

We stand proud through tears reflecting their courage and pride.

Because, Never Again.

That's why we ride.

**Written in memory of: Henry C. Barrows ~ Army, WWI (Great-Uncle) Cecil
A. Bray ~ Army paratrooper, WWII (Father) In honor of: Garrett C. Bray ~
Navy, Viet Nam (Brother) Donald A. Dinsmore ~ Marines & Army (Husband)

State of Business – Bike Illuminators

As a member of IV HOG for 7 years now, we wanted to share this information with the club first. As of January 2012, Bike Illuminators is currently on hiatus. I have been dealing with numerous medical limitations that have kept me from actively supporting the business for the last 5 + months now. We are in search of a possible buyer for the business and would like to keep it in the local area if possible. We do have some inventory in stock so if anyone has been on the fence about adding lights now is a good time to reach out to us. We have kits in many different colors and they will be sold below retail pricing. We also have some other items such as Brake Lights, Flex Arrays and Turn Signal Clusters.

Over the coming weeks/months we will be looking to sell the Business which will include the current inventory along with the domains and Name. We have enjoyed every bike we have lit up to make it a bit safer and want to thank IV HOG for all the support over the years. If anyone is interested in any items please feel free to contact us at Sales@HotLeds.com or you can call [215-510-5245](tel:215-510-5245) and leave a message. I still plan to be a part of IV HOG and to attend the local events now as a spectator not as a vendor.

Thanks Again,
