Director's Ramblings By Dave "Doc" Medich

IV HOG members,

Its unreal how fast the riding season has gone. I hope you took the opportunity to enjoy the many rides we planned this year. I have received a ton of positive feedback on the rides, roads, and the road captains who led the endeavors. Lets hope we can ride throughout the winter. Remember we can get an occasional 50-60 degree day.

Be prepared to see the large check, ribbon and toy story figure from John Worthington. He has every right to express his championship. For all of the

IVHOG members who turned out for the chili cook off, thank you. We developed some new relationships with Tri-State HOG and look forward to seeing them at some of our upcoming events.

Welcome to our new members including members from the Coopersburg HOG chapter. Due to the recent closing of Crossroads HD, their chapter will be closed this month. It is a difficult time for our brothers and sisters from Coopersburg. Lets show all of them the true IV HOG hospitality and respect

We have a lot going on over the next

few months and remember your participation is important for our success. The New Board will be ready to rock and roll and we plan on doing some new and exciting things. One thing is for sure. We need to continue to support Dean's HD. Without them IV HOG does not exist. For those of you needing motor clothes, collectibles, parts, or a new bike, make sure you visit our sponsoring dealer first!

HOGWASH!

Jokes, tall tails and just plain bologna!

Cold Biker

The biker was wearing a leather jacket that didn't have a zipper or any buttons.

Finally he stopped the bike and told the other guy, "I can't drive cold like this anymore with the air hitting me in my chest."

After thinking for a while he decided to put the coat on backwards to block the cold air from hitting him. So they were driving down the road and they came around this curb and wrecked. The farmer that lived there called the police and told them what happened.

The police asked him, "are either of them showing any life signs?"

The farmer then said, "well, that first one was 'til I turned his head around the right way."
