

Choose from over 100 Fragrances to create your own unique scent. We offer a variety of premium home & body products for you to blend into your scent experience.

Stop in for a fun & memorable scent experience!

HOW IT WORKS

All our fragrances are poured into candles for you to smell. We invite you to lift the lids and take your time to discover your favorites. Once you have your list of favorites, a mixologist will work with you to create a scent blend that you love! Then you work together to blend your unique scent into a candle, lotion, body scrub or any of the premium home & body products we offer. Last step, you create a custom label to finish your creation!
